frame construction details

All lounge chair frames are constructed using CNC cut 18mm Guaraply plywood made with Brazilian hardwood veneers. Joints are fastened with 2" Frame chisel-point staples, premium wood adhesive, and solid hardwood corner blocks with washer head wood screws.

suspension

Elasbelt webbing is used which provides the optimal resistance level for seating purposes. Made of the highest quality polypropylene and rubber, Elasbelt retains its elasticity after years of continuous use. Polypropylene Composition- 56% Rubber Composition- 44% Rubber Gauge- 24. Webbing is covered with synthetic fabric to prevent sagging or foam deterioration.

seat & back foam

Soy-based high resiliency polyurethane foam is manufactured in Asheboro, NC. All foam meets the requirements of California TB-117.

legs and feet

Solid kiln-dried red leaf maple is used for all exposed feet and legs and manufactured from raw lumber in our Hudson manufacturing facility. Brushed aluminum feet are manufactured in Thomasville, NC.
